Montrose Nurseries

Montrose, New York

Preliminary Remarks

IN PRESENTING this brief Catalog, we hope, by offering only the most desirable novelties, together with the more popular and well tried varieties of trees and plants, our patrons will be able to make satisfactory selections with less bewilderment than "wading" through long lists of technical names.

Experience has taught us that a great many of the novelties introduced annually are unreliable. Although most of them are tested by us, we aim to offer for sale only those of acknowledged worth.

Accurate grading receives strict and careful attention, so that our customers may rely on getting good-sized, well shaped plants, such as they have a right to expect and which will produce a superior effect the first season.

Exceptional care is also taken in digging to avoid mutilating roots so far as possible, in handling to prevent drying out before and while packing.

Packing is done with damp moss or other like material, in boxes or bales, for which we make no charge except for very large trees.

We guarantee stock to arrive in good condition even if entransit for two weeks. We have shipped to the Pacific Coast and to Cuba, with perfect success.

Most firms charge extra for packing which often amounts to considerable.

OUR TERMS are invariably cash with order or before shipment, but we are always pleased to extend credit to anyone of known responsibility, or who will furnish us satisfactory reference.

DISCOUNT—While we believe our prices are as low as is consistent with really high grade stock, we will allow a discount of five percent from all prices in this list, provided cash is sent with order.

Those who can visit our nurseries will be able to select more intelligently and with greater advantage to themselves, especially in June and July, when most things are in their greatest beauty. Come and see us, we will treat you right.

Correspondence solicited and if consistent with character and size of order, we will be glad to quote special prices.

We wish to thank our many customers for the liberal patronage given us in the past, and we shall endeavor to merit a continuance of this confidence by holding strictly to our motto of fair dealing.

Please read what some of our customers say on third page of cover.

We respectfully refer you to the Peekskill National Bank and also to a few of our satisfied customers, mentioned below, for whom we have made plantings. Dr. Albert Shaw, Hastings-on-Hudson; Mr. G. P. Hutchins, Larchmont, N. Y.; St. Mary's School, Peekskill, N. Y.; The Franciscan Sisters, Peekskill, N. Y.; Mr. Alexander Christie, Bayonne, N. J.; Mr. H. F. Ballantyne, Scarsdale, N. Y.

Nurseries only five minutes walk from station.

A BED OF RHODODENDRONS

Ornamental Department

PEOPLE are beginning to realize that by expending a little time and thought they can have well-kept, attractive grounds at moderate expense, adding to the beauty and value of same.

If the grounds are somewhat extensive, beautiful effects can be produced with shade trees, shrubs, etc., according to some prearranged plan.

If grounds are small, a few shrubs, roses, vines and herbaceous plants can be used to advantage. Vines trained over porches, fences, etc., are very effective at small cost.

We would emphasize the fact that you should **buy only the best**. It is not quantity but quality that counts. We have a fine stock of all kinds of shade trees, shrubs, etc.

HOW TO PLANT

Do not make the mistake of planting at random all over the grounds. Trees and shrubs may be planted along the drive leading to the house as well as on the borders.

In laying out the grounds, make as few walks as possible. Upright shrubs, roses, and flowers should be planted in clumps.

These beds should be kept well cultivated, to insure healthy growth. Mass the shrubs and most of the trees on the boundaries, so as to leave a broad space for the lawn, and where there is a pretty view leave an opening. Where there is an unsightly object, conceal it with trees or vines or both.

Do not plant large trees too near the house except on the sunny side for shade.

BIRCH (Betula)

American White Birch. Somewhat irregular growth, very ornamental, with its striking white bark 6-7 ft., \$1.25.

European White Birch. More erect and symmetrical than the above. 8 to 10 ft., \$2.00.

BEECH (Fagus)

The Beeches should be severely pruned when planted.

Copper Beech. Beautiful copper colored foliage. 3 to 4 ft., \$1.25.

Rivers' Purple Beech. 4 to 6 ft., \$2.00.

CATALPA SPECIOSA (Western Catalpa)

The large growing sort, 8 to 10 ft., \$1.00 each.

CATALPA BUNGEI

A remarkable dwarf species, usually grafted on stems 6 to 7 ft. high, when it forms a dense round head—see illustration. They are very desirable for formal planting where something is desired that will never get very tall, as at

CATALPA BUNGEI

BECHTEL'S FLOWERING CRAB

either side of an entrance drive, or path, or in some cases, even on the lawn.

Plants we offer have extra strong heads. Two to three years old, \$2.00 to \$4.00 each.

THE DOGWOODS (Cornus)

Are among the most beautiful and desirable medium sized trees; indeed, we know of no other tree that has so much to recommend it.

In early spring before the leaves show, it is covered with large, pure white flowers, followed by bunches of brilliant scarlet berries, and in autumn the foliage coloring is unsurpassed.

It does well in shaded positions as well as in the open.

CORNUS ALBA (White Flowering)

Selected plants, 4 to 5 ft., at \$1.00 to \$1.50 each.

" 5 to 7 ft., \$1.50 to \$2.50 each.

Cornus Flore Rubra. RED OR PINK FLOWERING DOGWOOD. This is identical with the above, except the flowers are a beautiful pink. Very attractive. A rare tree. Fine stocky plants, about 4 ft., \$2.50.

CRAB (Pyrus)

Bechtel's Double Flowering. A most welcome addition to our list of flowering trees. The flowers are very double, 2 to 3 inches across, of a delicate pink color, resembling a rose, both in form and fragrance. 4 to 5 ft., \$1.50 each. See cut above.

Parkmanii, Parkman's Crab. A beautiful sort with drooping, rosy pink flowers. 3 to 4 ft., \$1.00.

LINDEN OR BASSWOOD

(TILIA)

Of the Lindens the European species is perhaps the most largely planted. It makes an upright, symmetrical tree of large size, almost always grows very straight. The foliage is dark green and very dense. See cut. 8 to 10 ft., \$2.50, 10 to 12 ft., \$3.00 to \$5.00.

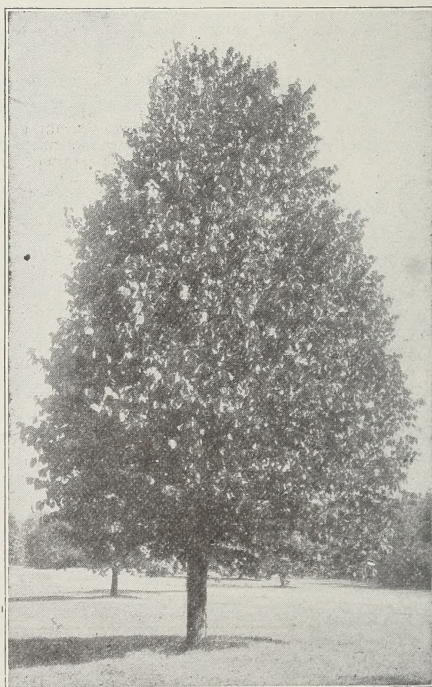

The American Species. TILIA AMERICANA, has the same general characteristics, except the foliage is a lighter green and larger. The most rapid growing of the Lindens. Selected trees, 8 to 10 ft., \$1.00; 10 to 12 ft., \$2.50 to \$4.00 each.

White Leaved Linden. TILIA AMERICANA ARGENTEA. Is a beautiful and very desirable variety of the American species, the foliage is a light silvery or greyish green. Fine trees, 7 to 8 ft., \$1.50. Prices on larger sizes by request.

MAPLE (Acer)

Acer Var. Dasycarpum. SILVER or SOFT MAPLE. Most rapid growing of the Maples. 2 to 3 inch caliper, \$2.00 to \$4.00 each. Larger sizes priced on application.

A. Platanoides. NORWAY MAPLE. 10 ft. and up. \$1.25 each; 1½ to 2 inch caliper, \$2.00 to \$3.00 each.

EUROPEAN LINDEN

Acer Platanoides Schwedlerii. A curious and very beautiful variety of the well known Norway Maple. It is of strong, sturdy growth, making a large spreading tree when given room. The foliage is especially attractive in spring and early summer, being a rich reddish purple gradually changing to dark green. Fine young trees, 8 to 9 ft., \$2.50 each.

A. Saccharium. SUGAR or ROCK MAPLE. 10 to 12 ft., \$1.00 each, \$10.00 per doz.; 1½ to 2 inch caliper, \$1.50 to \$2.50 each.

Acer Rubrum. SCARLET MAPLE. A particularly desirable sort. In early spring it is covered with racemes of small scarlet flowers, and in the autumn the foliage is indescribably beautiful. It makes a large well formed tree.

We offer some fine specimens, 8 to 10 feet, \$1.25 each. Prices on larger sizes by request.

JAPANESE MAPLE (Polymorphum)

A. Wieri. WIER'S CUT-LEAF MAPLE. A very desirable cut-leaved variety of the Silver Maple. 10 to 12 ft., \$2.00.

JAPANESE MAPLES

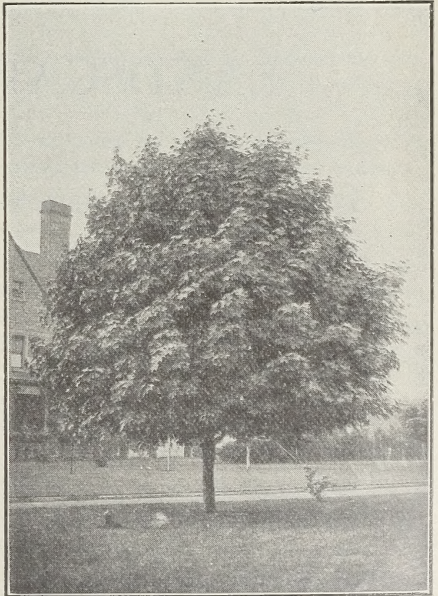

A. Japonica. We call special attention to this beautiful class of Maples.

They are the daintiest and most exquisite small trees with beautiful colored and variegated foliage. There is nothing so charming in hardy trees as this beautiful class of plants. They are perfectly hardy and will grow anywhere in our northern states.

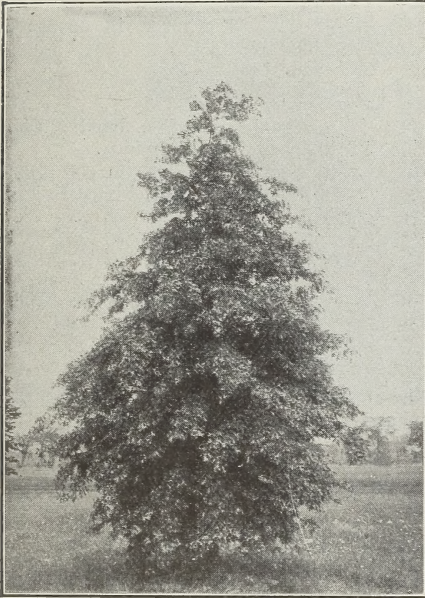

A. Polymorphum Atropurpureum. BLOOD-LEAF JAPAN MAPLE. Rich, blood-red foliage holding its color nearly all summer. Fine stocky plants, 2 to 2½ ft., at \$3.00 each.

A. Polymorphum Aureum. Beautiful golden foliage. 2 ft., \$2.50.

A. Polymorphum Dissectum. A charming variety

SCHWEDLER'S NORWAY MAPLE

PIN OAK

with deeply cut fern like leaves: reddish purple in color, graceful, somewhat drooping form. 1½ to 2 ft., \$2.50 each.

A. Polymorphum Lacifolium. Lace-leaved. Another beautiful sort, distinct from all the others, quite spreading; it takes on magnificent autumn tints. 2 ft., \$2.00 each.

OAK (Quercus)

We wish to call particular attention to the Oaks on account of their hardiness, sturdiness and their adaptability to any soil or situation, besides their beauty as a shade or ornamental lawn or street tree.

Of all the varieties, we believe (all points considered) the Pin Oak, QUERCUS PALUSTRIS, is the best and most satisfactory and is the most largely planted. It is the most rapid growing of the species.

The tree is of good form and seems to be immune from disease or injury from insects. The foliage is deep green, quite deeply cut or notched, turning to scarlet and purple in fall. Fine selected trees, 7 to 8 ft., \$1.50 each; extra fine specimens, 8 to 10 ft., \$2.00 to \$3.00 each.

WEEPING CUT-LEAF BIRCH

ELM (Ulmus)

American. 10 to 12 ft., \$1.00 each 2 to 2½ inch caliper, \$1.50 to \$2.00 each.

HORSE CHESTNUT (Aesculus)

White-Flowering. 8 to 10 ft., \$2.00 each.

Red-Flowering. 5 to 6 ft., \$2.00.

JUDAS TREE OR RED BUD (Cercis)

American. 5 to 6 ft., \$1.00 each.

Japan. 2½ to 3 ft., 75c.

SWEET GUM (Liquidambar)

Sweet Gum. A fine tree with beautiful star-shaped leaves, turning to purple and crimson in autumn. Straight growing. \$2.50 each.

POPLAR (Populus)

Carolina. The most rapid growing, hardy tree. 12 to 14 ft., 75c to \$1.00 each, \$10.00 per doz.

Lombardy. 8 to 10 ft., 75c each, \$7.00 per doz. 10 to 12 ft., \$1.25 each, \$12.00 per doz. Larger sizes priced on application.

SYCAMORE

Plane Tree. Will grow almost anywhere, even near the sea-shore. 10 to 12 ft., \$1.50 each.

SALISBURIA

Maiden-Hair or Ginko. A tall tree from the South, but perfectly hardy. 10 to 12 ft., \$1.25 each.

LANDSCAPE DEPARTMENT

After some years of experience in this line we are prepared to execute any contemplated landscape work upon the most favorable terms.

Upon application, a competent man will visit and inspect either old or new places with a view to planting or remodeling.

Plans and estimates cheerfully furnished—upon visit or receipt of specification—for any desired work of this kind, for which no charge will be made, provided all the stock is supplied by us.

It is our custom to guarantee our planting for one year, and we replace free of charge any trees or plants failing to grow within that time, unless damaged by carelessness after work is finished. This gives the customer full protection, and insures the planting of strong, healthy stock.

Many country places may be wonderfully improved, at a very moderate expense by the efforts of an intelligent person, experienced in this line, by having stock, planning and planting come under one contract.

We respectfully solicit your correspondence.

We refer you to—Dr. Albert Shaw, of Hastings-on-Hudson; Mr. Alexander Christie, President Park Commission, Bayonne, N. J. Franciscan Sisters, Peekskill, N. Y. St. Mary's School Peekskill, N. Y. Mr. G. P. Hutchins, Larchmont, N. Y.

MAGNOLIA SOULANGEANA, THE MOST POPULAR OF THE MAGNOLIAS

THE MAGNOLIAS

Their lavish profusion of large and beautiful flowers, their fragrance, richness of foliage and stately tropical aspect, place the Magnolias easily first among flowering trees. Planted in groups their Spring inflorescence is grand beyond description. All varieties develop into beautiful specimens that look well when planted either in groups or as specimen trees. They thrive in any good soil, but like best one that is warm, rich and moderately moist. Plant in Spring to insure best results.

Sweet Bay. MAGNOLIA GLAUCA. (S). The native Sweet Bay of our swamps, whose fragrant white flowers in June are much admired. Its glossy, laurel-like leaves remain green until late in the Fall.

	Each
3 to 4 ft.	\$2 00
4 to 5 ft.	2 50
5 to 6 ft.	3 50

Soulangé's Pink Magnolia. MAGNOLIA SOULANGEANA. (S). When in bloom the general effect is pink and the flowers, being borne in great abundance, produce a gorgeous sight. Perhaps the most familiar and satisfactory variety of this color to use.

	Each	Per 10
3 to 4 ft.	\$2 50	\$20 00
4 to 5 ft.	3 00	25 00

Lenne's Magnolia. MAGNOLIA LENNEI. (S). This remarkable tree blooms in May, and frequently again in late Summer. Its flowers are dark rose without and pearly white within. It is a strong grower, and makes a grand display when in flower.

	Each
3 to 4 ft.	\$2 50
4 to 5 ft.	3 50

Hall's Japanese Magnolia. MAGNOLIA STELLATA; SYN. HALLEANA. (VD). Dwarf and bushy. It blooms earlier than other varieties and its semi-double white star-like flowers are delicate and fragrant. Its many splendid qualities adapt it for specimen planting where a small tree is required.

	Each
2½ to 3 ft.	\$3 50

Early Spring planting is preferred for Magnolias.

WEeping TREES

BIRCH (Betula)

Cut-leaf Weeping. 8 ft., \$1.25. See cut page 4.

B. Young's Weeping. A curious, irregular drooping variety, with beautiful snow-white bark, rare and very ornamental. \$1.50. Extra large specimens \$3 to \$5.00 each.

CHERRY (Cerasus)

Japan Weeping. One of the most charming of the Weeping trees, especially when covered with its rose-colored flowers in early May. 5 to 6 ft., \$3.00.

ELM (Ulmus)

Camperdown Weeping. Extra strong heads. \$2.50. See cut.

MULBERRY (Morus)

Teas' Weeping. Forms a perfect umbrella shaped head, long, slender branches drooping to the ground. Extra strong, 3 and 4 yr. heads, \$1.50 to \$3.00 each. See cut.

WILLOW (Salix)

Babylonian Weeping. The most popular of the Willows. 8 to 10 ft., 75 cts.

Wisconsin Weeping. Another fine drooping form. 8 to 10 ft., 75 cts. to \$1.50.

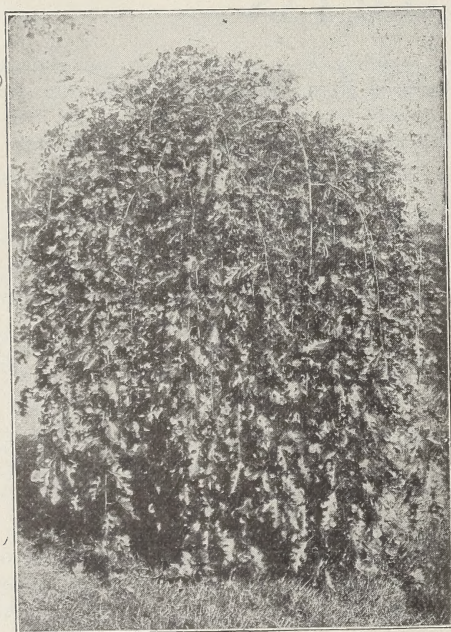

CAMPERDOWN ELM

ORNAMENTAL GRASSES

Hardy grasses are of the greatest value in lawn decoration when properly placed in the border of shrubbery or grouped in nooks and corners. The plumes form pretty winter bouquets if cut and dried.

Eulalia Zebrina. ZEBRA GRASS. Broad markings of gold across the leaf instead of lengthwise.

E. gracillima univitata. Foliage very narrow, airy and graceful. Either of above, large clumps, 25c each, \$2.25 per doz.

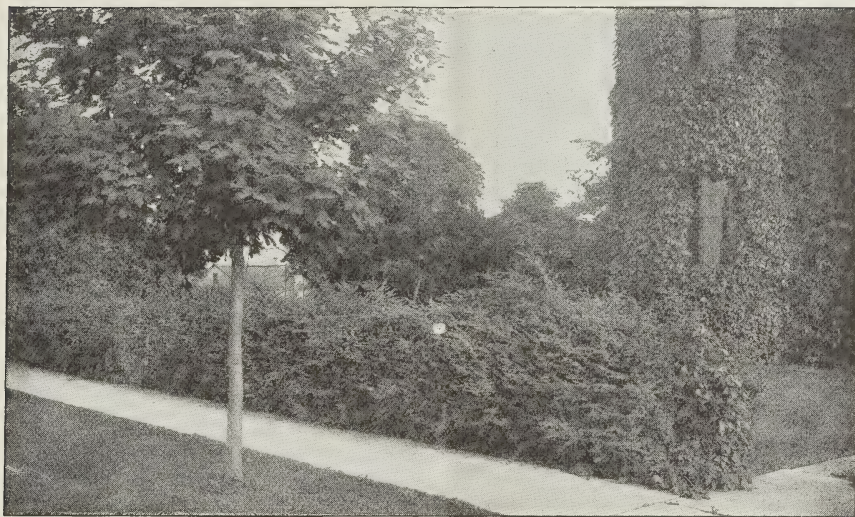

TEA'S WEEPING MULBERRY

EULALIA JAPONICA ZEBRINA
(For description see above)

FLOWERING SHRUBS

THE JAPANESE BERBERRY—A FINE HEDGE PLANT

Flowering shrubs appear to best advantage when planted in groups of a dozen or more, and by a judicious selection of varieties succession of bloom is afforded all summer. In laying out new grounds, shrubs should be used extensively, as they make a beautiful display the first season.

Plants we offer are all of good size and well rooted, one and one-half to six feet high, according to variety.

Althea. ROSE OF SHARON. Double red, pink, purple, blue and white. These bloom from August till October. 40 cts. each, \$4.00 per doz.

A. foliis variegata Buistii. BUIST'S VARIEGATED ALTHEA. 50 cts. each.

Amygdalus nana. FLOWERING ALMOND. Double pink- and white-flowering. 50 cts. each, \$5 per doz.

Azalea Ghent. This beautiful tribe of plants is fully the peer of the rhododendron. Flowers of nearly every shade of rose, yellow, red, etc. Strong plants with buds \$1.00 each.

A. mollis. Large abundant flowers of red, yellow, salmon, cream, etc.; very fragrant. Well budded plants, \$1 each.

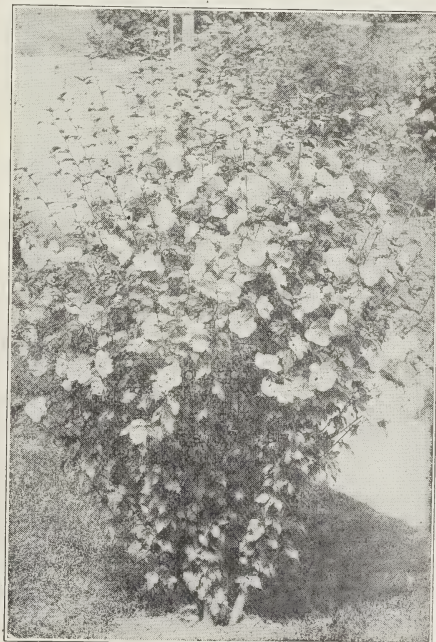

Berberis Illicifolia. HOLLY-LEAVED BERBERRY: A rare and beautiful shrub: almost evergreen. Useful among shrubby groups for the beautiful foliage effect. 50 cts. each, \$5.00 per doz.

B. purpurea. Foliage pure purple. 35 cts. each, \$3.00 per doz.

B. Thunbergi. Leaves purplish, suffused with a golden sheen in autumn; fruit dark crimson, remaining nearly all winter. Its glory of color and beautifully rounded form especially commend it. 25 cts. each, \$2.50 per doz.

In quantity ask for prices.

B. Vulgaris. Common Barberry, yellow flowers in drooping racemes in May or June followed by scarlet fruit. 25 cts. each, \$2.50 per doz.

ALTHEA, DOUBLE PINK

DEUTZIA, LEMOINEI

Chionathus Virginica. WHITE FRINGE. Moderate growth, rounded form; foliage large, pointed; white flowers in June. 50 cts each, \$4 per doz.

Corchorus Japonicus. JAPAN GLOBE FLOWER. Double, globular yellow flowers in April. 40 cts. each, \$3.50 per doz.

C. Japonicus variegatus. Dwarf very striking silver-fringed leaves; single yellow flowers in June. 35 cts. each, \$3 per doz.

Callicarpa purpurea. Numerous brilliant purple berries in autumn. 35 cts. each, \$3 per doz.

Clethra alnifolia. SWEET PEPPER-BUSH. Growth low; numerous small spikes of white and very fragrant flowers in July. 35 cts. each, \$3 per doz.

Cornus sanguinea. RED-BRANCHED DOGWOOD. 35 cts. each, \$3 per doz.

Cydonia Japonica rubra. RED-FLOWERING JAPAN QUINCE. 35 cts. each, \$3.50 per doz.

C. Japonica alba. Pure white flowers in April 40 cts. each, \$4 per doz.

Caryopteris Mastacanthus. BLUE SPIREA. A beautiful little shrub seldom seen; neat, clean habit, growing about three feet high. Flowers are produced in wonderful profusion in rich lavender-blue masses, from August until hard frosts. 40 cts. each, \$4.00 per doz.

DEUTZIA

We are indebted to Japan for this valuable genus of plants. Their hardihood, fine habit, luxuriant foliage and profusion of attractive flowers, render them the most beautiful and deservedly the most popular flowering shrubs. The flowers are produced the latter part of June in racemes four to six inches long.

Deutzia Lemoinei. A recent introduction. Although the habit is dwarf, the flowers are large, pure white, produced freely. 40 cts. each, \$3.50 per doz.

D. Pride of Rochester. Large, double white flowers, with the back of the petals slightly tinged with rose. 35 cts. each, \$3 per doz.

D. gracilis. A charming species of dwarf habit: flowers bell-shaped, pure white, about the first of June. 35 cts. each, \$3.00 per doz.

D. gracilis rosea. Same as above except that the flowers are tinged with pink. 40 cts. each, \$3.50 per doz.

Desmodium penduliflorum. (Lespedeza Sieboldi) JAPAN BUSH CLOVER. Sprays of rose-colored flowers middle of September. A magnificent plant for use in beds or groups of shrubs; though not really a shrub, it grows so strong it has come to be classed as such. 25 cts. each, \$2.50 per doz.

Euonymus alatus. WINGED EUONYMUS. A remarkable species with a curious wing extending down the stems between the leaves, also bearing in peculiar fashion shining oval red berries. Foliage a beautiful reddish purple in autumn. \$1 each.

Exochorda grandiflora. Profuse, pure white flowers in May. 50 cts. each.

Forsythia viridissima. Flowers a light shade of yellow, opening about the third week in April. 35 cts. each, \$3.50 per doz.

F. suspensa. A graceful drooping form; yellow flowers. 35 cts. each, \$3.00 per doz.

Hydrangea paniculata grandiflora. Extra strong plants, 2½ to 3 ft. 35 cts. each, \$3 per doz.

Hypericum aureum. Large, rich yellow flowers; a shrubby sort with fine narrow foliage, dwarf habit, profuse bloomer. 40 cts. each, \$4 per doz. Thrives in sun or shade.

Lonicera Morrowi. A species from Japan. A decided acquisition; strong, upright and rather spreading grower; blooming profusely in May and June: flowers pure white, followed by bright red berries. 35 cts. each, \$3 per doz.

L. Tatarica. TARTARIAN HONEYSUCKLE. A vigorous upright shrub, with fragrant pink or white flowers in May, followed by very ornamental orange-red berries. 40 cts. each, \$4.00 per doz.

PHILADELPHUS OR SYRINGA

HYDRANGEA PANICULATA GRANDIFLORA

L. Albertii. Low spreading growth, fine bluish-green foliage, pinkish flowers in June. 35 cts. each, \$3.50 per doz.

L. fragrantissima. (M). April. Small, creamy white flowers of a delightful fragrance borne in profusion. The deep green foliage is retained until Winter. Makes a handsome specimen. 2 to 3 ft., 25 cts. each; \$2.00 per ten; \$18.00 per hundred. 3 to 4 ft., 35 cts. each; \$3.00 per ten; \$22.50 per hundred.

Ligustrum Ibot. Japan Privet. Spreading habit, narrow leaves. 2 to 3 ft., 25 cts. each, \$2.50 per doz.

L. Regelianum. Regel's Privet. Heavy, spreading growth, black fruit. 35 cts. each, \$3 per doz.

Prinos verticillatus. BLACK ALDER. Very showy red berries in autumn, retained nearly all winter. 75 cts. each.

Philadelphus coronarius. MOCK ORANGE or GARLAND SYRINGA. 3 to 4 ft., 40 cts. each, \$4 per doz.

P. coronarius aureus. A beautiful golden-leaved variety of the preceding; dwarf. 18 to 24 in., 50 cts. each.

Potentilla fruticosa. SHRUBBY CINQUEFOIL. Erect, compact habit, flowers very pretty, yellow. 30 cts. each.

Rhodotypus kerrioides. Japan. Numerous pure white flowers about May 15. 3 to 4 ft., 40 cts. each, \$4.00 per doz.

Rhus Cotinus. PURPLE FRINGE, or SMOKE TREE. 3 to 4 ft., 40 cts. each, \$4 per doz.

Syringa. LILAC. Common white and purple. 35 cts. each, \$3 per doz.

S. Charles X. Reddish purple flowers. 60 cts. each.

S. Persica. PERSIAN LILAC. Less tree-like in form: upright shape, irregular; deep lilac flowers, holding their color well. 40 cts. each, \$4.00 per doz.

Symphoricarpus racemosus alba. WHITE WAX or SNOWBERRY. Pink flowers; white waxy berries in fall. 35 cts. each, \$3.50 per doz.

S. Rubra. INDIAN CURRANT. Branches literally covered in fall with red berries, causing them to droop gracefully. 35 cts. each, \$3.50 per doz.

SPIRAEA (Meadow Sweet)

These are indispensable in landscape architecture, owing to the diversity of forms, foliage, flowers and time of blooming.

Spiraea Anthony Waterer. A perfect gem in every way. It casts in the shade all Spireas in brilliancy of colors—a bright crimson, and is the most profuse and persistent bloomer of them all, bearing continuously large, flat clusters of lovely bloom throughout the summer and autumn. Dwarf habit; comes into bloom when not over 6 inches high. 35 cts. each, \$3 per doz.

SPIREA ANTHONY WATERER

PURPLE FRINGE

S. Bumaldi. Rosy pink flowers. 35 cts. each, \$3 per doz.

S. Collosa Alba. Dwarf white. Dense growth. 30 cts. each, \$3 per doz.

WHITE FRINGE

S. Frobelia. Similar to Anthony Waterer except that the foliage shows a finer autumn coloring. Also a stronger grower but blooms only once, in June. 35 cts. each, \$3.00 per doz.

S. prunifolia. BRIDAL WREATH. 40 cts. each, \$4 per doz.

S. Reevesii. A beautiful species from China. An enormous bloomer the flowers being arranged in cymes of pure white, narrow foliage, compact growth. 40 cts. each, \$4.50 per doz.

S. Rotundifolia. A rather curious straggling shrub of large size, the leaves are borne in whorls as the name implies. Rosette-like white flowers in June, 40 cts. each, \$4.00 per doz.

SPIREA VAN HOUTTEI

S. Thunbergii. Very numerous, white flowers in early May; yellowish green shredded foliage, turning to bronze in autumn. 40 cts. each, \$3.50 per doz.

S. Van Houtte. The most showy Spirea. Pure white, double flowers, in such profusion as to cause the branches to droop very gracefully. 3 to 4 ft., 40 cts. each, \$3.50 per doz.

Stephenandra Flexuosa. A compact-growing shrub: small, hawthorn-like leaves, bearing bunches of small, white flowers in early June. 40 cts. each, \$3.50 per doz.

Viburnum plicatum. JAPAN SNOWBALL. Numerous clusters of white flowers, borne along the stem instead of at the tips. Very handsome plicated foliage, turning to rich bronze in autumn. 50 cts. each, \$4.50 per doz.

WEIGELIA ROSEA

V. Opulus sterilis. COMMON SNOWBALL. 40 cts. each, \$4.00 per doz.

V. Oxycoccus. White flowers in large, flat heads in May. Numerous, bright red berries in fall. 40 cts. each, \$4 per doz.

Weigelia candida. Creamy white flowers. 40 cts. each. \$3.50 per doz.

W. variegata. Leaves handsomely variegated with golden; light pink flowers in great profusion. 40 cts. each, \$3.50 per doz.

W. Rosea. Rose colored flowers in great profusion in June. 35 cts. each, \$3.00 per doz.

Eva Rathke. The best red Weigela. Beautiful, dark red, blooms all summer. 50 cts. each—\$4 per doz.

Yucca filamentosa. ADAM'S NEEDLE. Valuable for rockwork; large plants, 25 cts. each, \$2 per doz. very heavy plants, 50 cts. to \$1 each.

"If you fail to find what you want ask us about it, we can undoubtedly supply you."

JAPANESE SNOWBALL

CLIMBING VINES

Ampelopsis Veitchii. JAPAN IVY. The best vine for covering stone or brick-work. Strong 2-year plants, 35 cts. each, \$3.50 per doz.

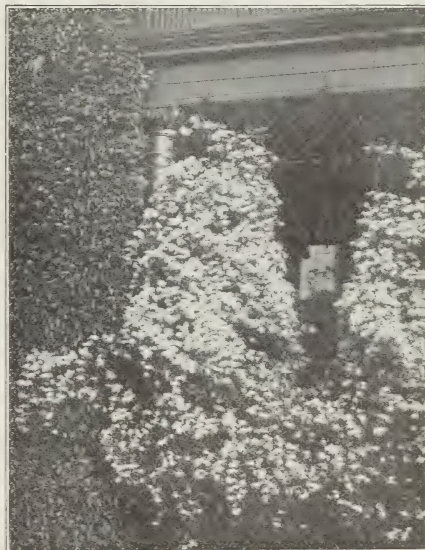

A. quinquefolia. VIRGINIA CREEPER. Strong plants, 30 cts. each, \$3 per doz.

Akebia quinata. Small, shining, sub-evergreen leaves. Small, purple, very fragrant flowers in June. 25 cts. each, \$2 per doz.

Bignonia radicans. TRUMPET VINE. 25 cts. each, \$2 per doz.

Clematis paniculata. Of strong, vigorous growth. Flowers white, star-shaped. Very fragrant. Strong plants, 35 cts. each, \$3 per doz.

Euonymus radicans. Foliage evergreen, very hardy. Useful in shaded places. Strong plants. 35 cts. each, \$3 per doz.

CLEMATIS PANICULATA

E. radicans variegata. An evergreen creeper with silvery variegated leaves. 35 cts. each, \$3.50 per doz.

Hedera Helix. ENGLISH IVY. Strong plants 35 cts. each, \$3 per doz.

Lonicera Halliana. HALL'S HONEYSUCKLE. Yellow and white flowers nearly all summer; very fragrant nearly evergreen. 25 cts. each, \$2 per doz., \$12 per 100.

L. sempervirens. SCARLET TRUMPET HONEYSUCKLE. Scarlet flowers all summer; very desirable. 40 cts.

Periwinkle. Bright green, glossy leaves, retained all winter; clear blue flowers in April and May. 20 cts. each, \$1.50 per doz.

Wistaria Multijuga. JAPANESE WISTARIA. Flowers light purple. 50 cts. each, \$4 per doz.

W. Sinensis. CHINESE WISTARIA. Best of all. Purplish white flowers in May. 60 cts. each.

W. Sinensis alba. A rare sort with pure white flowers. 60 cts. each.

EVERGREEN SHRUBS

Azalea amoena. A dwarf shrub with small dark green leaves, changing to bronze in winter. Numerous dark red or claret-colored flowers in May. Strong plants. \$1.50 each.

Kalmia latifolia. MOUNTAIN LAUREL. 18 to 24 in. \$1.50 each; large bushy plants, \$2.50 to \$3.50.

Mahonia aquifolia. HOLLY-LEAVED MAHONIA. Shiny green, prickly leaves, turning to bronze and red in autumn; clusters of yellow flowers in May. 16 to 20 in., 60 cts. each; \$6 per doz.

Rhododendrons. A relative of the Laurel, but larger flowers in larger clusters of various shades of red, purple and white. We offer only such sorts as have proven hardy in this climate. Prices on application.

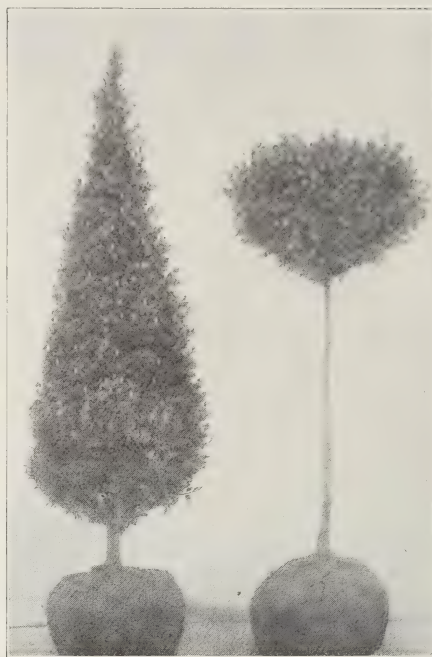

BOXWOOD (*Buxus*)

These beautiful evergreen shrubs have become very popular for formal planting and for decoration in tubs.

The foliage is thick and glossy dark green, and holds its color best of any evergreen. Bears pruning with impunity. Can be grown in any shape or form.

The **Semper virens** or **Tree Box** is perhaps the best of the large growing species. We offer a fine stock of the various forms.

Pyramidal, Bush Form, Standards. Prices and sizes on application.

BOXWOOD (*Buxus*)

EVERGREENS

ABIES (Fir)

Abies Concolor. SILVER FIR. Heavy foliage of a bluish gray tinge. Strong erect grower, making a fine large tree. 2 ft., \$2 each, 3 to 4 ft., \$3 to \$5 each.

P. Douglasii. DOUGLAS FIR. Conical form; branches numerous, spreading horizontally; leaves light green above, glaucous below. 2 to 3 ft., \$2 to \$3 each; 3 to 4 ft., \$3 to \$5 each.

A. Nordmaniana. NORDMAN'S FIR. Heavy thick foliage of a beautiful dark glossy green, an elegant tree, making a large tree eventually. 2½ to 3 ft., \$2.50 each.

JUNIPERS

Juniperus Canadensis. Low growth spreading open head; pale green foliage: choice. 18 to 24 in., \$1 each.

J. Canadensis aurea. A beautiful golden variety of the above. 18 in., \$2 to \$3 each.

J. Hibernica. IRISH JUNIPER. Very close, upright, slender growth, with a silvery glaucous appearance, 3 ft., \$2 each.

J. Japonica Aurea. GOLDEN JAPANESE JUNIPER. Rather spreading and eccentric in growth, very striking. Beautiful for rock work or other places where contrasts of colors are wanted. Good strong plants, \$2.50 each.

J. Sabina. SAVIN JUNIPER. Low growth: wide-spreading; dark green foliage: well adapted for rockwork and hillsides. \$1 each, \$10 per doz.

J. Schottii. A fine very hardy variety of the Red Cedar. Columnar in form; foliage light green; feathery. 2 to 2½ ft., \$2.25 each, 2½ to 3 ft., \$2.50 to \$3 each.

J. Sinensis Argenta. (CHINESE VARIEGATED JUNIPER.) A beautiful variegated variety, in which numerous sprays of white are interspersed among the green foliage. A formal erect grower, 2-2½ ft., \$2.25 to \$3 each.

We have made arrangements with a careful collector enabling us to offer native Rhododendrons of best quality at lowest prices by the carload; correspondence solicited.

J. Virginiana. RED CEDAR. Very tall, narrow compact growth. Fine plants. 3 to 4 ft., \$2.50 each, 4 to 5 ft., \$3 to \$5 each.

J. var. Glauca. BLUE RED CEDAR. Same as above, only with beautiful blue-green foliage. Rare and very choice. 2 to 3 ft., \$3 each, 3 to 4 ft., \$4 to \$6 each.

J. Pfitzeriana. An extremely hardy, valuable, spreading variety. Silvery green foliage. Both the main stem and lateral shoots have a light, feathery appearance, one of the finest of the species. \$1.25 to \$5 each.

RETINOSFORA (Japan Cypress)

A most interesting class of evergreens, many of them being of dwarf habit and adapted to small places. There are many varieties of tints and variegation among them, and they are all easily transplanted and perfectly hardy.

Retinospora ericoides. HEATH-LIKE JAPAN CYPRESS. Conical, compact form. 2 to 2½ ft., \$2 each.

R. filifera. THREAD-BRANCHED JAPAN CYPRESS. A beautiful tree, with bright green foliage. It is particularly graceful, as the ends of its shoots droop in long filaments. 2 to 3 ft., \$3 each 3½ to 4 ft., \$4 to \$6.

R. filifera aurea. GOLDEN THREAD-BRANCHED JAPAN CYPRESS. One of the handsomest of the family. It has all the gracefulness of the last and branches of a beautiful golden \$1.50 to \$3 each.

THE PYRAMIDAL ARBOR VITAE.

R. Obtusa. Thick, dark green foliage. 2 ft. \$2.50 each.

R. obtusa nana. A weird little tree of irregular, picturesque growth, and black-green foliage. Dwarf. 18 n., \$3 each.

R. obtusa nana aurea. Same as above, with beautiful golden foliage. \$3.50 each.

R. Pissifera. (PEA FRUITED CYPRESS.) Branches horizontal with flattened branchlets and closely adpressed, having whitish lines beneath. Makes a very shapely specimen. 2½ to 3 ft., \$2 to \$3 each; 3 to 4 ft., \$3 to \$5 each.

R. pissifera aurea. Bright golden flat, wavy foliage. 3 ft., \$2.50 each.

R. plumosa. PLUM-LIKE JAPAN CYPRESS. 2 ft., \$1.50 to \$2.00 each; 3 ft., \$2.50 to \$3.00 each.

R. plumosa aurea. GOLDEN PLUME-LIKE JAPAN CYPRESS.

Its shoots are bright golden tinted through the year: unsurpassed for massing. 1½ to 2½ ft., \$1.50 to \$2.50 each; 3 to 4 ft., \$3 to \$6 each.

R. squarrosa. Soft bluish green foliage. 2 ft., \$2.00 each, 3 ft., \$3.50 each.

NORWAY SPRUCE

RETINOSPORA

small foliage. Crimson berries late in summer and early fall. $1\frac{1}{2}$ to 2 ft., \$1.50 each.

T. Cuspidata brevifolia. A beautiful variety, very dark green, bushy spreading habit. We cannot recommend this Yew too highly. $1\frac{1}{2}$ to 2 ft., \$2 to \$3 each.

T. Hibernica. IRISH YEW. Very compact, pyramidal growth the best of the large growing yews. Absolutely hardy. Fine plants, 2 ft., \$2 each.

THUYA (Arborvitae)

Thuya American. 2 to 3 ft., 75 cts. each, \$7.50 per doz. 4 to 5 ft., \$2 to \$3.50 each.

Th. elegantissima aurea. ROLLINSON'S GOLDEN ARBORVITAE. Bright golden, changing to a beautiful copper in autumn. $2\frac{1}{2}$ to 3 ft., \$2 each.

Th. Globosa. Dwarf globe-shaped. 15 to 18 in., \$1.25 each.

Th. occidentalis aurea. PEABODY'S ARBORVITAE. Compact, pyramidal form; very bright, golden foliage. 2 to $2\frac{1}{2}$ ft., \$2 each; 4 to 5 ft., \$4 to \$5.

For larger or smaller sizes than those mentioned above, or evergreens for screens and hedges, write for special prices

Picea alba. WHITE SPRUCE. Compact pyramidal form: bluish foliage. 4 to 5 ft., \$3 to \$5 each; 2 to 3 ft., \$1 each.

P. excelsa. NORWAY SPRUCE. Well-furnished trees. 4 to 5 ft., \$1.50 to \$5 each; 3 to 4 ft., 75 cts. to \$3 each; \$8 to \$20 per doz.; 2 to 3 ft., 50 cts. to \$1.25 each.

P. pungens Kosterii. COLORADO BLUE SPRUCE. Moderately dense growth and pyramidal form like the White Spruce; foliage of a rich blue or sage color. 2 ft., \$2.50 each; 3 ft., \$4; 4 ft., \$6.

P. Nigra. BLACK SPRUCE. Very dark bluish green. 2 to $2\frac{1}{2}$ ft., \$1.50 each.

P. orientalis. ORIENTAL or EASTERN SPRUCE. Fine dark green foliage; more dense than Norway, somewhat slower growth; an elegant lawn tree, 2 to $2\frac{1}{2}$ ft., \$2.50 each; 3 to $3\frac{1}{2}$ ft., \$3 to \$5 each.

Pinus Strobus WHITE PINE. 4 to 5 ft., \$3.50 each; 3 to 4 ft. \$2 each. \$18 per doz.

P. Cembra helvetica. SWISS STONE PINE. A handsome conical tree, with park green, thick foliage. 2 to 3 ft., \$3 each.

P. Mughus. MUGHO DWARF PINE. Low-growing, broad, spreading; more of a large pine bush than a tree; good-sized plants. \$1.50 each.

P. Austriaca. AUSTRIAN PINE. Large, roundish form; dark glossy leaves. 4 to 5 ft., \$3 each; 3 to $3\frac{1}{2}$ ft., \$2.50 each.

TAXUS (Yew)

Taxus baccata. ENGLISH YEW. A charming tree with rich, dark glossy green foliage. \$1.50 each.

T. Canadensis. A very ornamental sort, rather spreading. Dark green

Th. occidentalis Ellwangeriana. TOM THUMB ARBORVITAE. Somewhat dwarf, but making a larger tree or bush than Globosa; very compact; dark green foliage. 2 ft., \$2.25 each.

Th. Siberian. Slow growth; very compact pyramidal form. 2 to $2\frac{1}{2}$ ft., \$2 each.

TSUGA

Tsuga Canadensis. HEMLOCK SPRUCE. Spray-like foliage, distinct from all other trees. 4 to 5 ft., \$4 to \$6 each; $2\frac{1}{2}$ to 3 ft., \$2.25 to \$3. each.

HARDY HERBACEOUS AND BULBOUS PLANTS

Astilbe Japonica. (SPIREA JAPONICA.) Strong clumps, 25 cts. each, \$2 per doz.

Bleeding Heart. 20 cts. each, \$2 per doz.

Chrysanthemums, Pompon (Artemesias). 20 cts. each, \$2.00 per doz.

Delphineum. LARKSPUR. Strong plants. 20 cts. each \$2.00 per doz.

Digitalis. FOX-GLOVE. 20 cts. each, \$2.00 per doz.

Herbaceous Peonies. Red, white and pink. Extra strong, 35 cts. each, \$3.50 per doz.

Hollyhocks. Assorted, single or double sorts, \$2 per doz.

Iris. German sorts, 20 cts. each, \$2.00 per doz. Japan sorts, 15 cts. each, \$1.50 per doz.

Jonquils and Narcisus, bulbs. 50 cts. per doz., \$3 per 100.

Phlox, Assorted Varieties. 20 cts. each, \$1.75 per doz.

P. subulata. MOSS PINK. Evergreen moss-like foliage; grows about 6 inches high; strong clumps, 15 cts. each, \$1.50 per doz.

Mallow Marvells. Most brilliant new production of scientific plant breeding. Immense flowers 8 to 10 inches across in fiery crimson, rich blood-red, a soft shell pink and clear snowy white. They surpass all other perennials in profuseness of bloom and brilliancy of color. From July until frost, the flowers continue to appear in profusion. Absolutely hardy, of herbaceous character they come up year after year under varied conditions. Strong plants two and three years old, which will bloom the first season. 50 cents each; \$5.00 per dozen.

Tritoma. (RED HOT POKER PLANT.) Strong plants, 20 cts. each, \$2 per doz.

IRIS

Deciduous Hedge Plants

Privet, California. The best all-round hedge plant. Plants we offer are extra stocky and exceedingly wellrooted. 2 to 2½ ft., \$4.50 per 100, \$40 per 1000; 18 to 24 in., \$3.50 per 1.00.

Berberry Thunbergii. \$15 per 100.

MALLOW MARVELS

PHLOX

HARDY ROSES

We offer below a select list of such sorts as have been found to be hardy in this climate, and that have proven satisfactory to grow out of doors. Plants we offer are strong two and three years old, except where noted, and will bloom the first season.

Price, except where noted, 40 cts. each, \$4.00 per doz.

HYBRID PERPETUALS

The word "perpetual" is perhaps, somewhat misleading, as only a few sorts under this head are really perpetual.

Those marked with a star (*) bloom practically from June till frost.

Anne de Diesbach. Bright, clear pink, large and full.

General Jacqueminot. Bright crimson-scarlet; very free bloomer.

***Mrs. John Laing.** Delicate pink, fine form, especially in bud; without doubt the best bloomer among this class of Roses; very fragrant. 50 cts.

Margaret Dickson. New. Creamy white; extra large and fine. 50 cts. each.

Ulrich Brunner. Bright cherry-red.

PAUL NEYRON

***Paul Neyron.** Large dark rose.

***Frau Karl Druschki.** Fine white, long pointed buds, plant a vigorous grower, good bloomer. 50 cts. each.

***Gruss au Teplitz.** Crimson, absolutely ever-blooming. 50 cts. each.

***Mamon Cochet.** Pink; buds long and pointed. 50 cts.

***Mamon Cochet.** White, with slight pinkish tinge. 50 cts.

SUMMER ROSES

Persian Yellow. Bright yellow.

Harrison Yellow. A little fuller than above.

MOSS ROSES

Salet. Pale rose; a good autumn bloomer.

Crested. Rose color; buds beautifully formed and very mossy.

HYBRID TEAS

Duchess of Albany. New. A sport from La France, which it closely resembles, except that it is darker. 50 cts. each.

LaFrance. Beautiful silvery rose color, lightest inside, beautiful in the bud.

Kaiserin Augusta Victoria. This is one of the finest and largest White Roses; buds large size; long and pointed 50 cts. each.

ANNE DE DIESBACH

"After careful selection we now have shade trees, which are growing very well and in every way satisfactory. Thank you for your courtesies in the matter."

"The box of Shrubs arrived in good order, and are very satisfactory in every way."

H. C. WADSWORTH, Manchester, Conn.

"The 2000 Privets for Mr. Corbin have reached their goal and in good shape, and the plants were found O. K. as you said they would be."

Prof. ALEX. OLDRIINI, 192 Broadway, New York City.

FRAU KARL DRUSCHKI

POLYANTHA ROSES

These are of great value for bedding, as they give a mass of bloom from June till November. Their habit is dwarf; flowers produced in clusters.

Clothilde Soupert. Flowers large, very double; pearly white, shaded with pink toward center. 50c.

Pink Soupert. A beautiful pink, blooms constantly. 50 cts. each, \$4 per doz.

LA FRANCE

NEW HYBRID POLYANTHA OR BABY RAMBLERS

These beautiful little Roses have grown wonderfully in favor since their introduction a few years ago. They are usually called Baby Ramblers, though they are all dwarf bush Roses. Strong plants, 50 cts. each, \$5 per doz.

Crimson Baby. The first of these sorts to be introduced and the most popular. Absolutely ever blooming.

Pink Baby. Small pink flowers in clusters.

White Baby. Small white flowers in clusters.

CRESTED MOSS

Please keep in mind that we give you plants, not only of good size, but well grown shapely specimens. In fact we guarantee satisfaction. If you are not pleased, we are not.

For want of space we have intentionally left out some varieties. Therefore if you have anything in mind that you do not see listed, write us, we will be glad to supply it at lowest market price.

CLOTHILDE SOUPERT

RAMBLER ROSES

Crimson Rambler. Strong, field-grown plants, 40 cts. each, \$3.50 per doz.

Yellow Rambler. Similar in all respects to Crimson Rambler, except color, which is a clear, decided yellow in the bud, changing to cream when open. Strong plants, 35 cts. each, \$3 per doz., extra size, 75 cts. each.

CRIMSON RAMBLER

Dorothy Perkins. Another grand Rambler; flowers double, borne in clusters, of a beautiful rose-pink; a good bloomer. 35 cts. each, \$3 per doz.

Excelsa. Red Dorothy. An improvement on the old Crimson Rambler, shoots more slender, and of more rapid growth. 40 cts. each, \$3.50 per doz.

Silver Moon. Large, silvery white with yellow stamens, an elegant sort, new and rare. Strong plants. 50 cts.

DOROTHY PERKINS

ROSA RUGOSA

JAPANESE ROSE

Japanese Rose. A valuable species for grouping or hedges. It is a particularly attractive bush, with its dense mass of large glossy leaves, which have a peculiar wrinkled appearance. Flowers 3 to 4 inches across, single, red or white, followed by scarlet fruits. Strong, field-grown plants, 40 cts. each; \$3.50 per doz.

Rosa Wichuraiana. The single, white Memorial Rose. A creeping species; flowers small, pure white, very fragrant; foliage bright glossy green. Valuable for covering banks, stumps, rockeries, etc. It will grow in very poor soil. Strong-field-grown plants, 35 cts. each, \$3.00 per doz.

EVERGREEN ROSE GARDENIA

ANOTHER NEW SET OF HYBRID

WICHURAIANA ROSES

A remarkable new set of Roses of wonderfully free growth. The foliage of all is leathery in texture, glossy, free from insects, and nearly evergreen. The large fragrant flowers are produced very freely.

Jersey Beauty, Wichuraiana X, Perle des Jardins. Large single flowers, three inches in diameter; opening pale yellow.

Evergreen Gem. Wichuraiana X, Mme. Host. Flowers produced singly on stems; yellow, buff in bud, opening almost white, 2 to 3 inches in diameter; perfectly double with delightful sweet brier fragrance.

Gardenia, Wichuraiana X, Perle des Jardins. Flowers produced single on stems six inches to one foot long; bright yellow in bud, cream-color when open; about three inches across. Strong plants, 45 cts. each, \$3.50 per doz.

Our Roses are all Strong Field Grown Plants and worth the money. They are not to be compared with cheap mailing sizes.

Additional list of the more desirable Roses of recent introduction, 50 cents each, \$5.00 per dozen except as noted.

Betty. A grand Rose, of splendid form, large and full, color coppery-rose, deliciously perfumed. 60 cts.

General Mac Arthur. Color brilliant scarlet. Fine form and good bloomer. 45 cts.

Jonkheer J. L. Mock. This grand Rose is the strongest growing in the Hybrid Tea class. The blooms are very large, produced in great profusion on stiff erect stems, of perfect form and highly perfumed. Color clear imperial pink. 60 cts. each, \$6.00 per doz.

Killarney. Pink. A grand pink Rose, always in bloom.

Killarney. Brilliant. Deep rosy carmine. 60 cts. each.

Mrs. Aaron Ward. Always a joy to the owner, absolutely distinct Color coppery-orange in the open bud, golden-orange when partly developed, pinkish-fawn of lovely shade when fully open. Everybody falls in love with it who sees it. 60 cts. each \$6.00 per doz.

Richmond. Pure rich scarlet, very free and continuous flowering.

Radiance. A brilliant rosy-carmine, displaying beautiful rich opaline-pink tints in the open flower. Fine form, large size and constant bloomer.

KILLARNEY

Testimonials

"The Privet you shipped last week, at the order of Prof. Oldrini, was received and has been planted. It is very satisfactory, and I wish to know if you can furnish me 500 more of the same."

AUSTIN CORBIN, Banker, N. Y. City.

"All the shrubbery furnished by you has proved very satisfactory, both to ourselves and to Mr. Langton."

DINKLE & JEWEL, Irvington-on-Hudson.

"The trees arrived in perfect condition. Both the growing and the packing are highly creditable to you."

C. H. TIBBITS, Portchester, N. Y.

Hedge came in fine form, and growing fine. Am well pleased. The other stock is also fine. All I can say is I am well pleased with the goods, and can recommend your goods to the very highest.

F. J. MEYERS.

245 E. Utica St., Buffalo, N. Y.

The shipment arrived all right; am much pleased with the trees and shrubs.

IRVING G. McCULLEY,
Grosse Point, Mich.

The trees, etc., arrived in excellent condition, and am well pleased with all. They

were well packed, consequently were not injured at all in transportation.

W. C. EMERICK, Ardsley, N. Y.

Plants arrived today; they are fine plants and in good condition. I never bought better.

J. H. McCHESNEY, Verona, Pa.

"The Cemetery order was A No. 1 in every respect, and I am very much pleased."

A. F. BLOODGOOD,
Kensico Cemetery, Kensico, N. Y.

"Shipment of Shrubs arrived in excellent condition, and I wish to say that they exceeded my expectations."

HENRY VIER, White Plains, N. Y.

"The plants you sent here are very satisfactory. The Quartermaster is very much pleased."

A. J. RHODES, West Point, N. Y.

The box and bundle of trees arrived at Hartsdale yesterday, and it affords me great pleasure to state that they were in very good condition, thanks to the careful way in which they were packed.

W. T. GRAFF, Jr.,
Hartsdale, N. Y.

"Your bill just received, the trees are fine, the best I ever had."

J. D. CARPENTER, Ossining, N. Y.
